# **COLDEST WEATHER**

CHICAGO, Feb. 6,-"Warmer weather tonight except in Montana, Wyoming and Dakota, where lower temperatures are expected."

This prediction by the weather bureau here today caused general rejoicing among the people of the middle west who have shivered for several days in the worst "freeze" of the winter. The weather in Chicago today was still intensely cold with the mercury hovering about the zero mark. Suffering here is intense among the city's poor and there were many accidents and small fires.

Yesterday was the coldest day of the winter in Chicago, the thermometer registering 2 degrees below
